**PROF. MAHMOUD SHAHEEN AL-AHWAL**  
Editor-in-Chief  
Saudi Journal of Internal Medicine

### Dear Colleagues,

Saudi women have proved themselves in various fields over the past 10 years: education, arts, business and, more importantly, medical care. Saudi women have made great achievements not only at the national level but have also acceded to the global level. There are Saudi female scientists at world renowned medical institutions and famous academic centers in different parts of the world. To date Saudi women continue their fabulous medical performance and great academic accomplishment. Hence, with all the generous support and superb facilities provided by the Saudi government, women are part of the new transformation program and will be given more opportunities to play a bigger role in the nationwide development according to Vision 2030. In brief, Saudi women are expected to play a crucial role in expediting the success of Vision 2030.
