PROF. MAHMOUD SHAHEEN AL-AHWAL
Editor-in-Chief
Saudi Journal of Internal Medicine

Dear Colleagues,

King Abdulaziz University is keen in supporting research in all specialties in all fields. Bringing awareness and its benefits in medical research to communities in Saudi Arabia and developing countries.

Saudi Journal of Internal Medicine (SJIM) publishes original clinical work within the broad field of general and internal medicine and its sub-specialties and features Original Articles, Reviews, Brief Communications, and Case Reports.

The university has prepared and provided on-going campaigns in areas of quality research for the College of Medicine, especially providing massive support for its staff and students.

We encourage all medical professionals whether a student, academic, physician or scientist in all medical fields to give more support to research. The importance of medical research cannot be understated as diagnosis and treatment depend upon the contribution of knowledge and experience from all medical professionals.

With keen enthusiasm and excellent support from our new Board Members, I hope that our SJIM journal will continue to flourish and to expand in scope and depth, attracting more authors from the research field of Internal Medicine. With the support of the Editorial Boards and other staff, I hope that the SJIM quality and appreciation will further improve.

Please join me in my goal of continuing to work to make SJIM a best international journal.

A handwritten signature in blue ink, likely belonging to Prof. Mahmoud Shaheen Al-Ahwal, the Editor-in-Chief mentioned in the text.
